

A Healthy Ocean
Starts With You

Overview

S.E.A. Aquarium aims to acquaint children with the majestic oceans and their inhabitants, as well as to explore the interconnectedness between our lives and various aquatic habitats that are right here in or around Singapore.

We hope to instil values in children to make Singapore waters a safer and better place for the marine community. Through tiny tweaks to their daily routines, children can take action by exploring and understanding some of the possible effects of our daily actions on the marine community, and co-create or realise ideas to protect the marine animals and their homes.

Educator Resource Guide Phase 1

- Introduce poster to the children – recommended to print it out on four A3-sized papers.
- Allow children to explore the illustrations on poster.
 - o Tip 1: Provide children with magnifying glasses to spot characters.
 - o Tip 2: Play the “I spy” game with children while exploring the illustrations.

Phase 2

- Using the Let's Explore activity card, invite children to predict or ask questions:
 - What is the diver doing?
 - I think the submarine is going to pick all the litter up.
 - What is that animal hiding in the shipwreck?
 - The little boy threw the rubbish into the ocean because there is no dustbin nearby.
- Pick questions / predictions and turn them into topics for discussion in subsequent lessons.

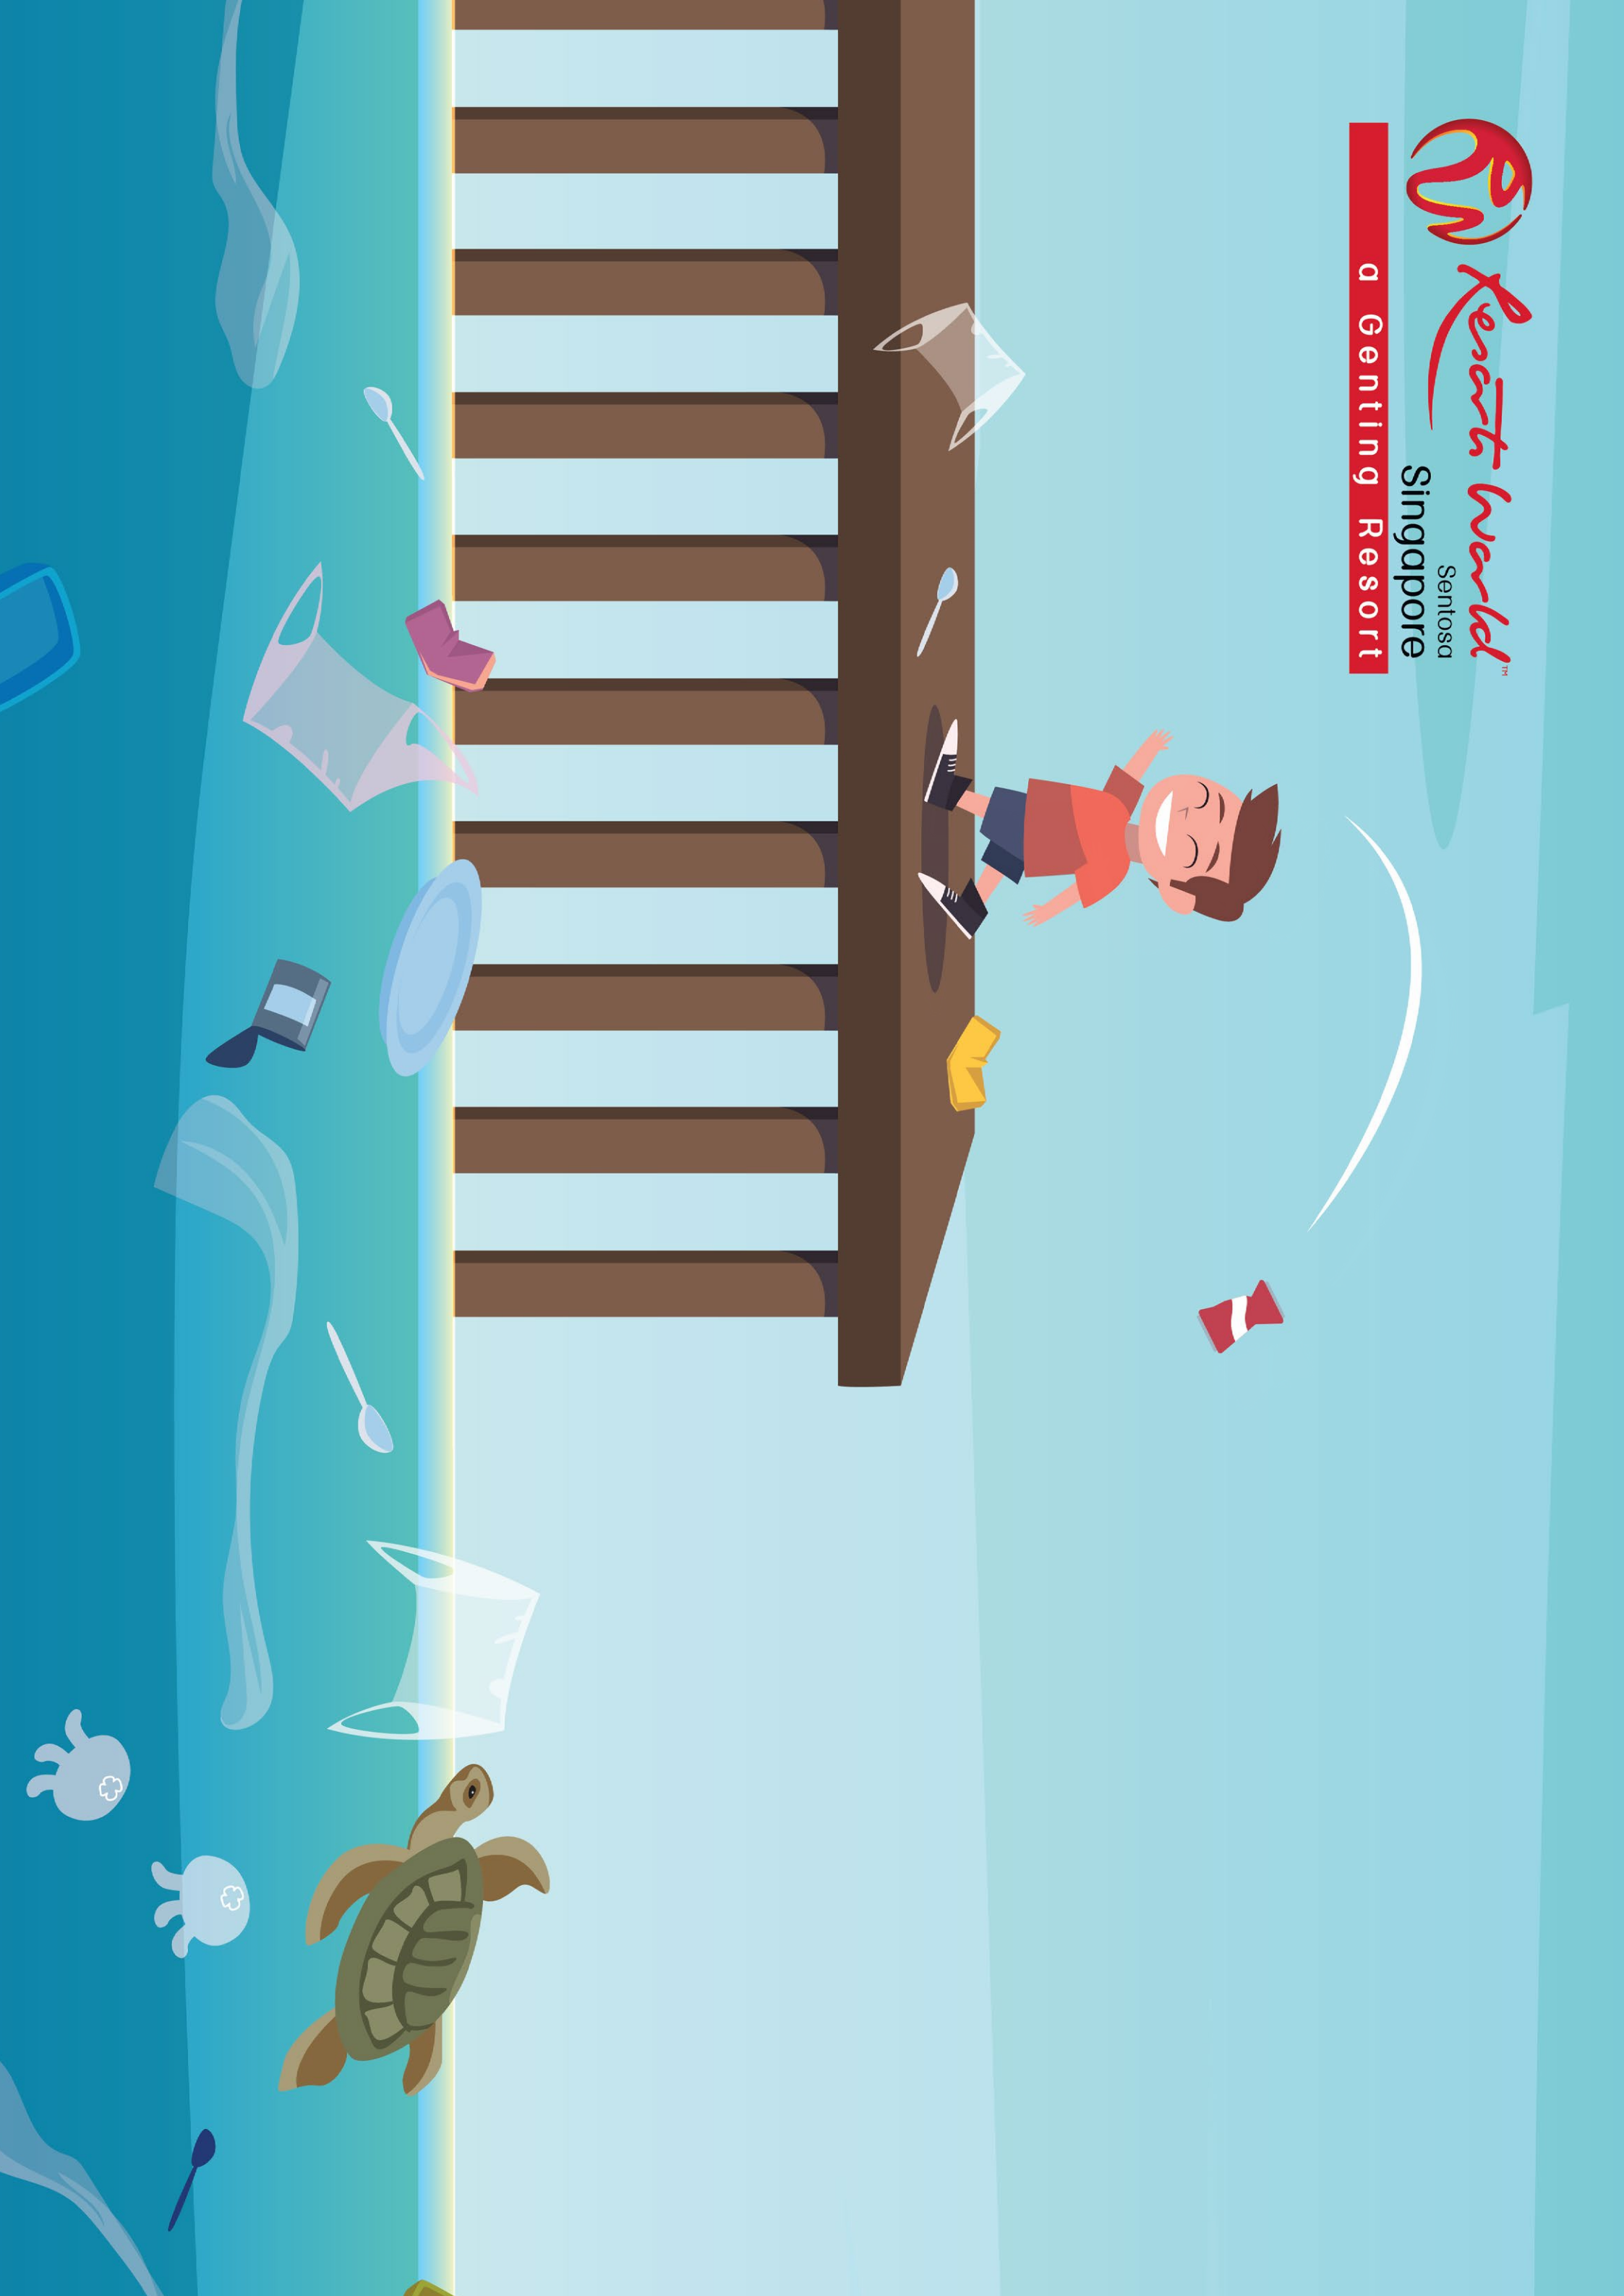

Phase 3

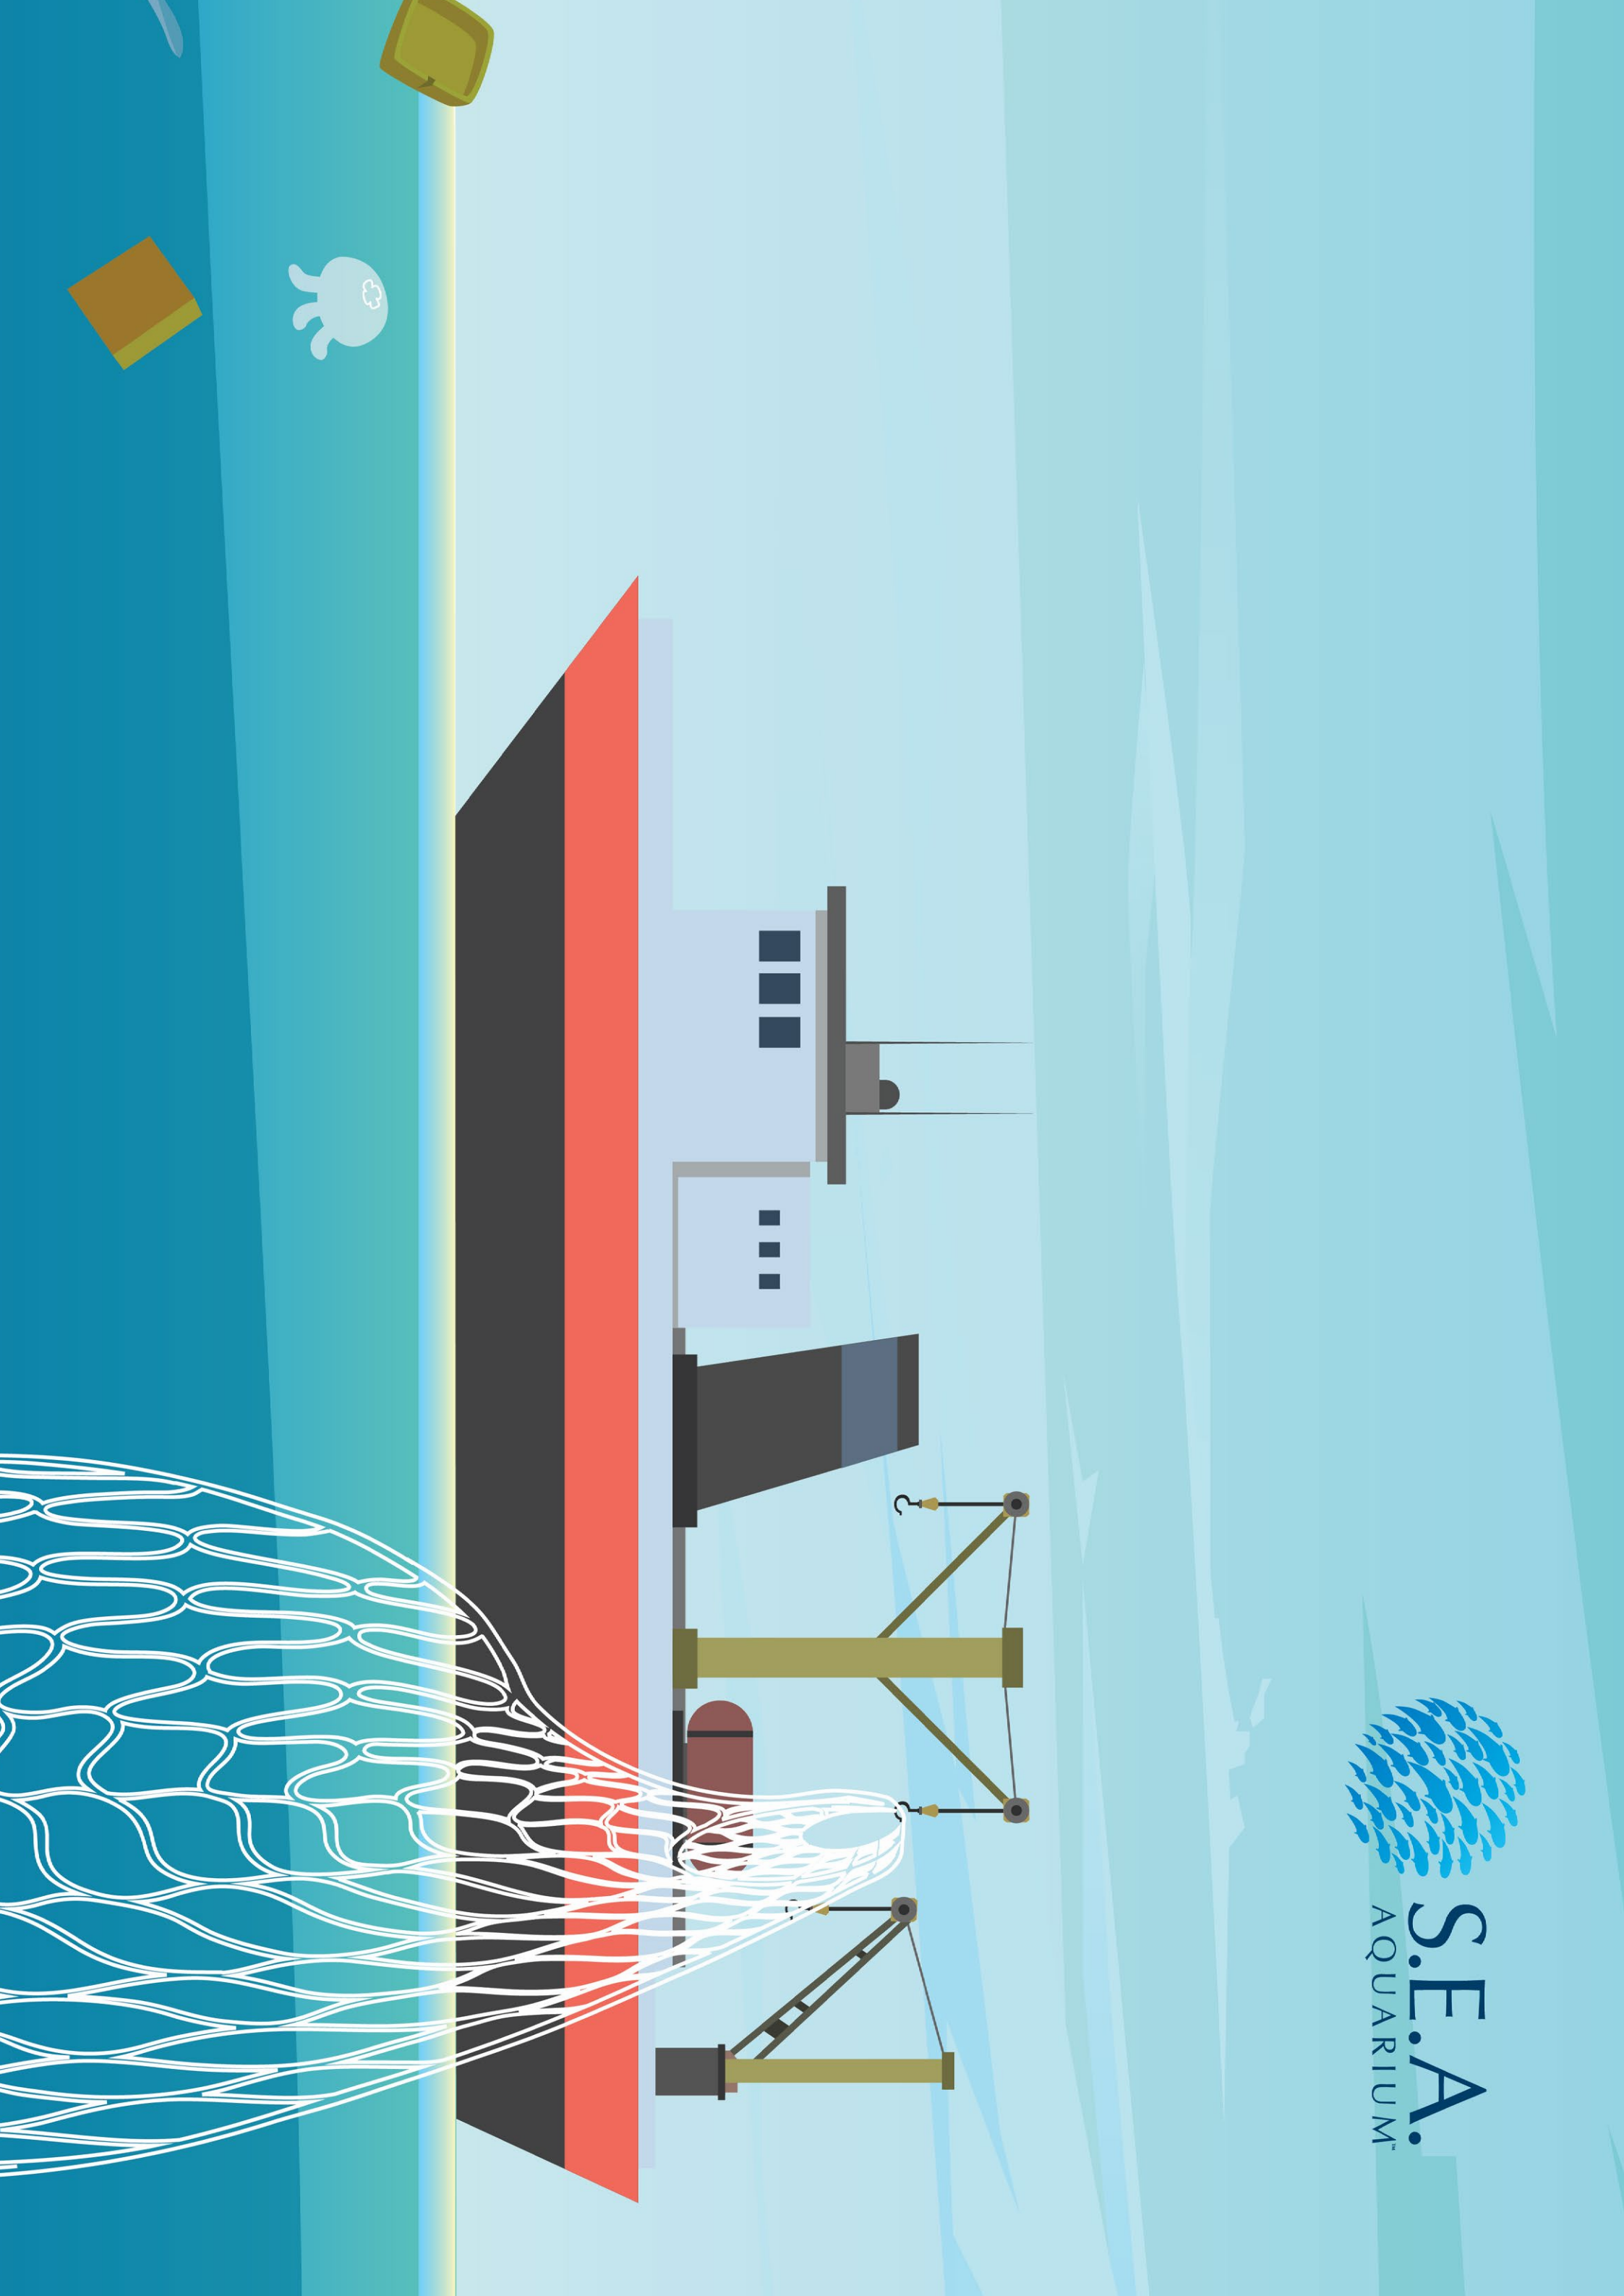

- Using the Take Action! activity card, encourage children to pen down ideas to solve the environmental issues or to find out more about the marine animals!
- Take action and make the ocean a better place!
