

Sentosa Learning Journey Program for Preschools

Discover. Experience. Create.

Outdoor Learning Programs

Bring education out of the classrooms through sensory play and motor skills building. An outdoor adventure like no other, as our young learners will be able to observe butterflies as they emerge from their cocoons or an open-air play space that offers bird's-eye view of the South China sea and various climbing obstacles.

Learning Journey at Butterfly Park
“Explore Nature”

Learn through Play at Nestopia
“Motor Skills Building Playground”

Recycling Programs

Through our recycling programs, it allows our young learners to understand the importance of recycling and their role in saving the environment. That even the tiniest of hands can make a difference, therefore, encourages them to play their part to save mother nature.

Sentosa Embraces Litter Free
(S.E.L.F) Program
“Love Our Nature”

Co+Nut+ink Educational
Recycling Program
“Save The Earth”
