

## Activity 2 : Sunset by the Beach

sentosa™  
THE STATE OF FUN

### Objective:

- Use leaves, fruits or any part of the plant that can be found at home to create a Sunset by the beach scene

### Duration:

30 minutes

### What do you need?

- Any part of the plant (leaves, stem or fruits) from home
- Scotch tapes or glue
- Paper
- Pencils
- Colour markers
- Acrylic Paint
- Paintbrushes
- Newspaper

### Description of activity:

1. From your home, take some leaves, flowers or fruits (Make sure they are clean and free of insects)
2. Ask your child draw a sunset on the paper.
3. Mix the paint colours to your child's preferences. (You may want to place newspaper around the working area)
4. Pick your material and paint one side of it. (You can use the underside of the leaves to paint the sunset with details of the veins and fruits for the fireworks/insects)
5. Place the painted part onto the paper and apply slight pressure on it. (This allows more paint and details to be transferred onto the paper)
6. Repeat the steps till the painting is completed.
